## **Recycling and Disposal Fees**

### **Recycling**

Much of the equipment that comes from the corporate / private sector is not suitable for reuse. But there is a desire to keep as much as possible of the hazardous electronic waste (e-waste) out of landfill both in New Zealand and overseas. We sort and collate the equipment depending on it's make-up into various loads, then use third party organisations to do the recycling.

We don't accept phones, fax machines, photocopiers, televisions, VCR's, stereos or other household electronics.

### **Disposal Fees**

- CRT Screen (15", 19", 21") - \$25+ gst each
- CRT Screen (17" manufactured before Jan 2000) - \$25+ gst each
- CRT Screen (17" manufactured after Jan 2000 in non-working condition or not 100% cosmetically okay - \$25+ gst each
- CRT Screen (17" manufactured after Jan 2000 in good working order and cosmetically okay) - \$5+ gst each
- LCD Screen (any size that isn't working) - \$5+ gst each
- LCD Screen (any size that is in good working order) - no charge
- Computer boxes and laptops (including keyboard, mouse & cables) - \$5+ gst each
